SUMMARY

Detail-oriented and adaptable professional transitioning into software development. Skilled in Java, JavaScript, and full-stack development with hands-on experience in building web and command-line applications. Eager to contribute technical skills and problem-solving abilities in a junior developer role at a company focused on growth and learning.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, HTML, CSS

Frameworks & Libraries: Spring Boot, Vue.js

Databases: PostgreSQL, SQL, JDBC, Database Design, E/R diagrams

Tools & Practices: Git, IntelliJ, Agile, Unit Testing (JUnit), Integration Testing

TECHNICAL PROJECTS

Fan/Band Connector Final Capstone Project

- Engineered a full-stack music app featuring in-app notifications and a user dashboard to boost user interaction and engagement with favorite artists, utilizing JavaScript, Java, and Vue.js
- Enhanced site content and functionality by integrating Spotify and MusicBrainz APIs to showcase artist images, album and track information, and genres

TEnmo Currency Exchange App Mini Capstone Project

- Developed a command-line app in Java with PostgreSQL, implementing MVC design and a REST API
- Performed API testing with Postman, validating endpoints for functionality, accuracy, and performance
